

Consultant CAMHS Psychiatrist – £170,000 FTE

Would you like a flexible schedule with hours to suit you? If so, we would love to hear from you.

We are one of the UK's leading privately owned mental healthcare providers. CQC registered and a designated body, our ambition is to make the highest quality mental healthcare as accessible as possible.

Demand for our services is currently growing especially among children and young people seeking a diagnosis for autism and ADHD. To help meet that demand, we are looking for Consultant CAMHS psychiatrists to join our team. These are general psychiatric roles, but with a requirement for experience in neurodevelopmental disorders especially ADHD & ASD.

Required qualifications and experience

- Consultant CAMHS Psychiatrist – with relevant experience in ASD (ADI-R trained) and ADHD (Young DIVA-5)
- Full GMC Registration (specialist register)
- Current MRCPsych status (or equivalent)
- Legal right to work in the UK
- Enhanced DBS check – less than 3 years old
- Working knowledge of Mental Health Legislation, risk management principles and practical risk assessment.

You will be provided with full support from our dedicated report writing team and triage team of qualified assistant psychologists. You will have a well-balanced schedule seeing between 2 and 4 patients per day with extra time allocated for neurodevelopmental assessments.

Your day-to-day will be supported by our bespoke mental health platform from which you can manage all your patient bookings, pre-assessment questionnaires and reporting.

Much of our work is currently conducted remotely. However, where face-to-face appointments are required, you will also have access to one of our comfortable and spacious clinics nationwide.

In addition to the opportunities for personal development, we can offer:

- Competitive salary
- Contributory pension scheme
- 25 days annual leave plus bank holidays
- Up to 4 weeks unpaid leave in any one holiday year
- Your birthday as a holiday
- Sick pay
- Employee Assistance Programme
